

# By Bike around Českomoravské pomezí

The area of Českomoravské pomezí does not only boast beautiful scenery, an abundance of historical sites and points of interest with a chequered history, but also represents heaven on earth for cyclists. If you are a lover of active relaxation and enjoy seeing new and remarkable things and places, then pay attention, because you have a chance to experience all this thanks to the wide and varied cycleway network of Českomoravské pomezí.

Local cycleways can be divided according to various criteria. There are routes aimed at families with small children as well as very demanding trails for fit and trained cyclists. Or it is possible to choose the route depending on what type of bike you own. You will find cycleways for trekking, mountain, road, cross or MTB bikes. In past years cycling fans responded very positively to the "By Cyclobus through Českomoravské pomezí" project. This year cyclists can look forward to a nice surprise, which is the extension of the cyclobus route in the direction of Moravská Třebová. The line will lead via Polička, Proseč, Nové Hrady and Litomyšl to Svítavy and from there through Moravská Třebová and Městečko Trnávka as far as Jevíčko.

The cyclobus will run on the same days as last year, i.e. each Friday, Saturday and Sunday from June to September. More details about the timetables will be posted on the [www.ceskomoravskepomezí.cz](http://www.ceskomoravskepomezí.cz) website and on leaflets, which will be available in the Information Centres of Českomoravské pomezí, bus stations and obviously also on the actual cyclobuses. And which places in Českomoravské pomezí can you visit on your bike?

## VÝCHODNÍ ČECHY

### "Through Maštál Forests"

If you aren't scared by steep hills and long climbs, you should definitely set out on a ride through "Maštál Forests". The route leads through the Toulcovcova maštál (Toulvec's Stable) nature reserve, mostly on rough field and forest paths marked with Toulcovcova maštál Microregion cycling symbols. Legend has it that the marauding knight Toulvec used to have a hide-out here, but today you need not fear him.

### Which Way to Czech Versailles?

Would you like to combine cycling and history? How about setting off for "Czech Versailles"? This is how people sometimes refer to the Castle in Nové Hrady. In the village of Nové Hrady you can view the Castle, gardens or the Baroque Granary, which houses the first Czech Museum of Cycling.
